Project	ACC Guidelines	Required Documentation	
<b>POOLS/SPA</b>	Access across HOA property for construction is prohibited	Plat map with pool and equipment location, material list, diagram of pool design	
<b>ARBOR/PERGOLA</b>	Sealant or stain must be translucent or semi-translucent in a natural wood color (see approved stain color chart for options) or a dark brown/dark walnut solid stain.	Manufacturer’s website link, with name and number of stain color if staining.	
	Paint applied must match the existing house trim color	Manufacturer’s website link, with name and number of paint color if painting	
	Masonry materials used must be uniform with existing masonry on the house	Diagram or photo of design, plat map with arbor location, material list, stain or paint color, roofing details. Metal roof color to be a matte finish medium to dark brown, dark gray, or black.	
	Roofing materials used must either (a) match the existing roof shingles, (b) be of an open wood slat design, (c) be of an open wood slat design with a clear tint/transparent/no color polycarbonate material installed on top the arbor, (d) Polygal Topgal Standing Seam polycarbonate system (bronze or clear), (e) be a louvered roof system approved on a case-by-case basis OR (f) standing seam metal.		
<b>PATIO COVER</b>	Sealant or stain must be translucent or semi-translucent in a natural wood color (see approved stain color chart for options) or a dark brown/dark walnut solid stain	Manufacturer’s website link, with name and number of stain color if staining.	
	Paint applied must match the existing house trim color	Manufacturer’s website link, with name and number of paint color if painting	
	Masonry materials used must be uniform with existing masonry on the house	Diagram or photo of design, plat map with location, material list, stain or paint color, roofing shingles. Metal roof color to be a matte finish medium to dark brown, dark gray, or black.	
	Roofing materials used must match the existing composite roof or be a standing seam metal. New high-tech solutions will be reviewed on a case-by-case basis		
<b>OUTDOOR KITCHEN</b>	All sides of the kitchen must be of a finished look and aesthetically appealing	Plat map with kitchen location, material list, sample photo or diagram of kitchen design	
	Masonry materials used must be uniform with existing masonry on the house		
<b>FIREPIT / FIREPLACE</b>	All sides of the firepit/place must be of a finished look and aesthetically appealing	Plat map with firepit/place location, material list, sample photo or diagram of firepit/place design	
	Masonry materials used must be uniform with existing masonry on the house		
	Check the Town of Flower Mound building codes Chapter 38 – Fire Prevention and Protection		
<b>TRASH ENCLOSURE (For lots with wood fencing)</b>	Must be “U” shaped with a gate or “L” shaped so trash receptacles are not visible from any public streets adjoining the lot, from adjacent homes or other public right of way	Plat map with enclosure location, material list, sample photo or diagram of design, link to manufacturer’s website with name and number of stain color.	
	Must be installed adjoined to home, garage or fence with no gaps and adhere to the 5’ setback		
	Must match existing wood fence style & stain color		
	Enclosure can be a minimum of 6 feet or a maximum of 8 feet high but cannot be taller than the existing wood fence.		
<b>EXTERIOR LIGHTING</b>	Outdoor lighting such as but not limited to landscape lighting, light poles and spotlights	Plat map with location, sample photo or website link of the product	
<b>VEHICLES</b>	Vehicles on the lot and not stored in the garage may not have a vehicle cover and must have a valid registration, valid license plate on display, and be in good working order (operable, no chocks in use, not on blocks, etc.)		

Project	ACC Guidelines	Required Documentation
<b>EXTERIOR CLOTHESLINES</b>	Not permitted	
<b>SATELLITE DISH</b>	The satellite dish may not be pole mounted or mounted over the front door of the house	Location on the house
<b>BASKETBALL GOALS</b>	One permanent or portable basketball goal. If over garage, backboard must be clear. If portable, the goal must be setup and maintained as originally designed. No blocks/bricks, sand/mulch bags or other material may be placed on the base except for an ACC approved product (ex: Hoop Secure Base Anchor).	Type: permanent (over garage or on pole) or portable. Location on home or on lot. Sample photo or website link on the product
<b>ADDRESS SIGNAGE</b>	Address signage on the home must be consistent with the homebuilder's original standard. Curb address numbers are limited in location, quantity, size, color, and content.	Plat map with location, sample photo or diagram
<b>YARD ART</b>	Sculptures, wall/fence art, statuary, fountains, birdbaths/houses/feeders, wind chimes, dead material (such as petrified wood, animal skulls) visible from the street. Yard art to be harmonious with the neighborhood and limited in number, size and color. Yard art with water to be maintained to prevent mosquitos.	Plat map with location, landscape design plan, sample photo or website link of the product
<b>FRONT DOOR AND SHUTTER STAIN</b>	Sealant or stain must be translucent or semi-translucent in a natural wood color (see approved stain color chart for options), a dark brown/dark walnut solid stain, or a ebony/onyx stain color.	Manufacturer's website link with name and number of stain.
<b>SOLAR SCREENS</b>	All windows on the same side of the house (upper and lower levels) must be screened the same, and very dark solar screens must have visible bars	Location on house, website link of screen color and design
<b>WINDOWS</b>	All windows on the same side of the house must match. Example: all windows on the west side of the house must either have grids or not have grids.	Location on house, website link of window color and style
<b>OUTDOOR FURNITURE VISIBLE FROM THE STREET</b>	Limited to 1 small side table and 2 chairs, 1 bench or a small café table with 2 chairs. Folding furniture and umbrellas must be removed from public view when not in use.	Plat map with location, sample photo or website link of the product
<b>CONCRETE RE-SURFACING</b>	Will be considered behind fences only. Not permitted on front porches, walkways and driveways. Reviewed on a case-by-case basis.	Location, website link to the product, examples of the installed product/color
<b>SWIMMING POOL ENCLOSURES</b>	Must be installed within a side/rear yard perimeter fence (wood or tubular steel). No more than 6' in height. Designed not to be climbable. Comprised of tubular steel fencing, or transparent mesh or clear panels set in metal frames.	Location, website link to the product, examples of the installed product/color
<b>LATTICE/TRELLIS</b>	Lattice/trellis, visible from the street, will be reviewed on a case-by-case basis. Must be well constructed and harmonious with the existing fencing material and neighborhood. If employed in multiple locations, all must match. May not be used as screening for trash containers, fencing, etc.	Photo of home and proposed location, sample photo or website link of the product
<b>RETRACTABLE SHADES</b>	Retractable shades will be reviewed on a case-by-case basis. Must be attached to a patio cover. Color must match the home's existing trim color.	Map showing location of patio cover, photo of patio cover showing the location to be installed, sample photo or website link of the actual product and color

New high-tech solutions will be reviewed on a case-by-case basis. These applications must include product details, local installation addresses and contact information for the vendor.
